SKILLS

Hadoop Ecosystems:

MapReduce, HDFS, Hive, Impala, Oozie, Zookeeper, Sqoop

Programming Technologies:

Java, Spring Boot, JPA, Hibernate, Android, Python, JSP, Servlet, HTML, JavaScript, MySQL, MongoDB (prior experience), Shell Scripting,

Cloud Technologies:

AWS (Beginner)

OS:

Linux, Windows

WORK EXPERIENCE

Software Developer Intern

XYPRO Technology, Simi Valley, CA

June 2019 – December 2019

Project: XYGATE SecurityOne

- Enhanced webpage performance by implementing pagination in Spring Boot application.
- Implemented POC to automate database deployment with Liquibase and Jenkins in CI/CD pipeline.
- Refactored hibernate code to JPA in Spring Boot application with RESTful API.

Senior Software Engineer

Capgemini India Pvt. Ltd., Pune, India

January 2014 – January 2017

Project: Barclaycard Data warehousing in Hadoop

- Led efforts to build data acquisition model and development of ETL queries in Hadoop warehouse using Hive, Impala and Oozie to populate dimensions, facts tables to provide data access using OBIEE reporting tool.

Project: Document Content Management

- Build Java application using MongoDB GridFS, for high volume documents storage and retrieval.

Software Engineer [Java Developer]

Ascent Strategic Management Group Pvt. Ltd. Pune, India

October 2012 – January 2014

Project: Monitoring & Control of Industrial Devices

- Modularized development on multiple components of a web-based solution with Java, JSP, Servlet, and JavaScript. Designed graphical representation of reports with integration of R graph library

ACADEMIC PROJECTS

Smart NFC Manager

Fall 2018

- Android app to perform read-write tasks based on Near Field Communication (NFC) hardware device to automate repetitive actions. App feature set includes connecting device to WIFI without entering credentials, adding new contact, mute/unmute device with a single tap on NFC tag.

Communication system for vocal cord down paralyzed patients

Spring 2018

- Application to ease communication challenge between caregivers and patients using AI with OpenCV in python.
